Dear Mr. Hedberg:

Re: Annual Report of Mining Operations: 1991, 1992
Ivy, Standard II, Patti Ann, Far West Mines

Enclosed are the Reports for both the 1991 and 1992 reporting periods for each of the above-referenced mines.

Standard II Mine and Ivy Mine

These properties have been fully reclaimed and inspected by Mr. Holland Shepherd of your office. Energy Fuels purchased these properties from Atlas Minerals who may have had bonds in place; however, I do not believe Energy Fuels has a bond on either of these properties. Please let me know what bonds are tied to these properties according to your records. In any event, Energy Fuels requests a full release of any bond and termination of the permits.

Patti Ann

The Patti Ann been reclaimed and reseeded. By letter dated July 17, 1992, Energy Fuels requested that our \$23,800 bond be reduced to \$1,060 pending successful revegetation, and we hereby renew our request for partial release.

Far West

The Far West Mine has been reclaimed and reseeded. By letter dated July 17, 1992, Energy Fuels requested that our \$35,300 bond be reduced to \$1,395 pending successful revegetation, and we hereby renew our request for partial release.

I will look forward to hearing from you regarding verification of the bonds on the Ivy and Standard. If there is anything I can do to help obtain the bond reductions on the Patti Ann and Far West, please feel free to ask.

Very truly yours,
